Slovenia, situated in the heart of Europe, is a country so varied and engaging, it is as though it was created for the enjoyment of visitors. It abounds in natural beauty, picture-perfect Alpine peaks and valleys, clear mountain rivers and lakes, the wonderful caves of the Karst region, the blue Adriatic and rolling green hills. All of which is within easy reach.

It is also known for its healing thermal and mineral waters. The history of many of Slovenia’s health resorts dates back to Roman times. Water, climate and other natural healing resources are the core of the certified Slovenian natural spa and wellness centers located in very diverse regions combining centuries old tradition with modern medical treatments.

We are experienced and dynamic destination management company in Ljubljana, Slovenia. We are strategically located in the center of Europe, connecting the Western Balkans, Central Europe and Western Europe. Our services extend over this region too.

We provide turnkey solutions to your travel needs, whether it is an adventure-oriented trip or a honeymoon or just a regular family vacation, we can plan and execute it to suit our clients’ needs and budgets.

Meetings, events, conference and incentive trips are an important part of any business, we have the skills and capabilities to arrange for your annual management conferences.

Slovenia’s strategic location and its abundance of breathtaking nature makes it an ideal place for sports team preparation programs at high altitudes with plenty of green fields and the availability of the wellness infrastructure.

Due to its rich natural resources and countless springs of healing waters, Slovenia is a perfect destination for your rejuvenating spa experience or specialized medical treatment.

SLOVENIA IS ALSO HOME TO THE WORLD FAMOUS DONAT MG MINERAL WATER.
Slovenia’s spas are designed for both medical treatments, prevention purposes or just for relaxation and family fun. Over the next few pages we will showcase a number of medical, wellness and spa centers and hotels.

The philosophy of spas is based on three pillars:

Health – Requires an integrated holistic approach of modern medicine, health professionals, state-of-the art equipment and the natural resources that are abound in Slovenia.

Prevention – “Prevention is better than cure” Desiderius Erasmus – Individual and dedicated health programs for preventing and pre-empting chronic diseases.

Relaxation – Reviving body & mind, physically & spiritually, realigning our inner self and filling us with positive energy.
At the Rogaška Medical Centre, located in the center of Rogaška Slatina, home of the famous Donat Mg water, your health is in the hands of leading and renowned experts working according to the latest discoveries in their field of expertise. The basis for the diagnostics is a specialist examination using state of the art diagnostic equipment providing accurate testing and analyses. Based on the results and individual examination, the specialist doctor will prescribe the type of treatment and complementary therapies which make the treatment faster and more effective. The Accreditation Canada International certification proves the excellent quality of the services and the safety of the procedures according to the international standards of excellence in the quality of health treatment.

**TERME DOBRNA - MEDICAL CENTER**

Terme Dobrna is the oldest working Slovenian thermal spa with a tradition over 600 years old. In the year 1403, the water was used the first time for health purposes. Since the year 1542, the thermal water in Dobrna is known as an ideal means in treating gynecological and urological illnesses, rheumatic, and illnesses like rheumatism, for healing diseases and motor system injuries. The spa is set in an un-spoilt and peaceful environment with bioclimatic activity. Its uniqueness also lies in the exceptional energy of the 200-year-old park with an ideal Feng Shui setting.

They have ensured that with modern technology and cutting-edge knowledge, investigations will be as invasive as possible and with the latest state-of-the-art equipment, the highest quality.

**THERMAL WATER, FANGO AND PEAT**

The alkaline thermal water with a temperature at the source of around 35 to 36.5 °C, and contains adequate amounts of Calcium, Magnesium, and Hydrogen Carbonate is the main healing factor in the Dobrna Spa. Due to the calcium ions the water contains, the Dobrna thermal water acts as anti-inflammatory, and anti-allergy with all chronic inflammation of the digestion and urinary organs. It as well accelerates the purging of water from the body. Fango and peat complement its healing effects.
As part of the Medical Centre, we perform a variety of methods of physiotherapy and occupational therapy, through which we try to achieve a quick restoration of the individual’s lost bodily functions due to injury, illness or surgery. For all patients in need of our constant help during their recovery, we provide continuous 24-hour nursing care with a customized accommodation. In addition, we have developed high-quality preventive programmes and programmes for the preservation of health. The Centre also features self-funding specialist clinics and counselling services.

- **Back pain** (Zdravilišče Laško we realized years ago that with the back pain patients it is extremely important not only to learn the proper implementation of the exercises, but to be also aware of the causes of pain and above all learn a different, the proper way of life. Therefore, we designed health education and prevention program for healthy back - School against back pain, which will soon celebrate 25 years of operation.)
